Canva.com wireframing
TryHackMe (cyber)
VScode
VBA for Applications
Microsoft Office
Good problem solving

EXPERIENCE

Printshop Graphic Artist
The Print Workshop, Hull |

Learning to use CorelDraw and CorelPaint graphics suite to create Scalable Vector Graphics objects for use in t-shirt designs, cup murals, posters, and signs.

- We also created small business documents like flyers, brochures, disclaimer documents, logos, and formatted letters.
- We also printed documents and materials using assorted print outputs user laser prints, carousel printers and sublimation.

Braille Encyclopaedia Frontend Developer
Braille Workshops, UK | Jan 2009 – Aug 2015

I learned VisualBasic.NET within the Visual Studio IDE; to work in a team to create an application aimed at aiding people with visual impairments. We linked a Tactile-Touchpad to the application. My role was to style the frontend user-controls, for sighted users and add tab-indexes for visually impaired users. I also added numerous data entries to the dictionary and encyclopaedia.
